

FIG. 2

FIG. 3

FIG. 4

FIG. 5

FIG. 6

A blank coordinate plane with x and y axes. The x-axis is horizontal and the y-axis is vertical, intersecting at the origin. There are no tick marks or labels on the axes.

This diagram shows an exploded perspective view of a multi-layered structure, indicated by the bracketed label 42. The structure consists of several components:

- 35**: Two long, thin rectangular strips, likely flexible, positioned at the top and bottom.
- 37**: A central rectangular panel.
- 38**: A wavy line representing a flexible hinge or joint connecting the strips to the central panel.
- 40**: A vertical rectangular strip on the left side.
- 41**: A vertical rectangular strip on the right side.
- 43**: A vertical rectangular strip in the center, below the main panel.
- 44**: A vertical rectangular strip on the far left.
- 45**: A vertical rectangular strip on the far right.
- 46**: A vertical rectangular strip at the bottom center.
- 47**: A vertical rectangular strip on the left side of the bottom section.
- 48**: A vertical rectangular strip on the right side of the bottom section.
- 49**: A vertical rectangular strip on the far left of the bottom section.
- 50**: A vertical rectangular strip on the far right of the bottom section.
- 51**: A vertical rectangular strip in the center of the bottom section.
- 52**: A vertical rectangular strip on the left side of the bottom section.
- 53**: A vertical rectangular strip on the right side of the bottom section.
- 54**: A vertical rectangular strip in the center of the bottom section.
- 55**: A vertical rectangular strip on the left side of the bottom section.
- 56**: A vertical rectangular strip on the right side of the bottom section.
- 18**: A wavy line representing a flexible hinge or joint connecting the strips to the central panel.
